Goldbelt Wins GSA 8(a) STARS II Contract Award

Juneau, Alaska – Goldbelt, Incorporated is pleased to announce it has been selected by the GSA to perform work under the 8(a) STARS II contract. The 8(a) STARS II contract is designed to provide simple to complex IT solutions for the Federal Government such as: IT help desk support, information assurance, cyber-security, virtualization, IPVS, Web 2.0, and more. The performance period is five years with one five-year extension. The ceiling over 10 years of work for this contract is \$10 billion.

The Goldbelt family of companies that will work on this contract include Hawk, C6, Peregrine Technical Solutions, and Nisga'a Data Systems.

“We are excited to be recognized as a premier service and products provider by our clients,” Chuck Wimberly, President and CEO of Goldbelt, said. “This is the largest contract Goldbelt has competed for and won. We are ready to continue exceeding the expectations of our customers and growing our business.”

Federal agencies can leverage the STARS II contract for services in the following functional areas: Custom Computer Programming, Computer Systems Design, Computer Facilities Management, and Other Computer Related Services. The 8(a) STARS II allows for 8(a) socioeconomic credit transferrable to the agency, pre-competed, easy-to-use contracting, with access to proven 8(a) small business technology providers. It has shortened procurement lead times and a lower user access fee (0.75 percent) built into contractors' ceiling prices.

Goldbelt has 21 operating units doing business in all 50 states and holds more than 30,000 acres of land in Southeast Alaska. The company sells goods and services in the transportation, internet technology, construction, tourism, and other industries.

Headquartered in Juneau, Goldbelt, Inc. has more than 3,600 shareholders and was established under the Alaska Native Claims Settlement Act.
